Yummy in my Tummy **Delish organic baby & toddler food**

We arranged a taste test this spring with a full-line sampling of Yummy in my Tummy. Parents responded overwhelming their love for Yummy in my Tummy...they loved that it was fresh, loved that it was certified organic and loved the safe chemical free packaging (BPA-free, phthalate-free, BHT-free, BHA-free). What BNB loved to hear most though was the feedback about how the KIDS liked it. *"He really liked the food. I've tried everything...all of the organic foods frozen in the market and jarred...He did not take to any of these. But he loved your food!"* Their food line includes three stages designed around your child's age: Simple & Smooth, Textured & Tasty, Savory & Scrumptious. They also carry organic dried fruit and veggie snacks and finger foods, perfect for eating out and diaper bag staples. To order, go to: www.yummyinmytummy.com
